

Trusting in Him!

The lockdown restrictions continue to lift little by little and we are believing church services altogether will resume very soon.

Sister Reeves was invited to speak at a ladies' meeting at the African church where we had a Holy Ghost outpouring service in January. The people responded to God's Word as He touched their hearts. We believe God will continue to work in this relationship with this church and organization!

One of our church members testified recently that her employer's family and their friends watched one of our online services with her. She was encouraged by their interest and response! This is a family that has never considered attending our church because of their cultural ties to the national religion. We give God the glory for making ways that we never anticipated to reach into homes with His Truth!

God bless you for your continued prayer and support! As you may know, the European Union has blocked travelers from the United States indefinitely this year even as they open their borders to other countries. Your faithfulness in giving allows us to stay here during this time. If we returned to the US, we would not be allowed to return to Europe. May God show you His glory as we all labor together for His Kingdom!
