

Cyprus Recap - Looking Forward!

Under the guidance and prayerful consideration of our pastor, we made the decision to return to the United States for a brief season in order for my wife to help her parents during her father's (Reverend Stuart Lassetter's) lung cancer chemotherapy and radiation treatments. We are believing God for his complete healing!

Our time in the nation of Cyprus was so fruitful. In spite of the lockdowns, online-only church services for seven months out of the last twelve, and not being able to even visit the church people for months at a time, God was so good to the church there. Several miraculous healings took place, backsliders were renewed, and new souls were added to the kingdom during our tenure in Cyprus. We rejoice in everything God did! The Summers family is working diligently to return to Cyprus and have scheduled flights just a couple of weeks out from the time of writing this newsletter. The work has carried on in their absence and they are eager to return.

One of our primary goals of being in Cyprus was to learn the Greek language in order to reach the Greek people. Greek is a complex and beautiful language and must be taught methodically. God connected us with an incredible linguist shortly after arriving in Cyprus, with whom we studied for the extent of our time there. Though we still have a ways to go, we were so blessed to learn Greek to a conversational level with the help of the Lord.

We will be traveling on deputation as God opens the doors during our time in the US. I may have to travel alone some as my wife helps her family, but we look forward to connecting with you in the days ahead.

Thank you for your sacrificial giving and upholding us in prayer. We love each of you dearly and are excited about the future and working for the kingdom of God!
