

Thanks be to God!

We are so excited the lockdown restrictions in Cyprus lifted to where we have been able to resume services in the church building. Although several are not able to come from different cities because of restrictions, we have been blessed to have several in the building and the others online.

As much of the world is, we are facing a resurgence of COVID-19 cases. As such, the government is tightening restrictions once more, but thanks be to God, we are still able to meet as long as everyone is masked.

We recently had a couple of church members express feeling a call to the ministry and we are anticipating beginning leadership training in the near future.

God has spoken specific financial needs to several of you and we thank you for responding to what you felt the Lord impressing you to do. Our lives are a complete walk of faith and each time you give as you feel led, it is strength to our faith!

May the Lord richly bless you and keep you during this time!
