

Jesus Is the Healer!

A few months ago, one of our precious saints was not feeling well and progressed very quickly into great health complications. The doctor was convinced that it was cancer according to the tests and symptoms. The church prayed. Tissue was sent off for a biopsy and in the meantime surgery was performed to remove the mass. Post-surgery the doctor declared that it was a “miracle” that the mass was so small inside her because all the symptoms in her body and all the tests until that point were signs of an advanced stage of cancer! In her follow-up visit, the doctor reported that the mass was benign and that no further treatment would be necessary. There is no explanation for the symptoms she was having and the contradictory end result except for Jesus’ wonder-working power! Praise God for this miracle of healing!

This month, one of our dear saints’ sons experienced job loss and limited food due to the Covid-19 crisis. The church prayed and he received a job offer! Glory be to the Provider!

Our one-year visa renewal appointment went well with no conflicts and no delays in the first step. Paperwork is now in processing , and we are joyful to continue serving in this field!

Thank you for your faithfulness in giving and in prayer! Your monthly support and offerings are all timely and we can’t express our thanks enough. This past month many of you have given above and beyond. May the Lord abundantly bless you for your sacrifice!
