The Lord is faithful and good!

The lockdown restrictions are still in place here with government permission required to leave the home; penalties are still imposed if these rules are broken. However, God continues to move in people's hearts and during our online services.

We have started long-distance discussions on biblical topics between Brother and Sister Summers and us to provide additional teaching for the local church.

Praise report! One lady who had been backslidden for eight months but who had attended a couple of services again right before the lockdown recently testified that during one of our online services that she was watching, the Lord touched her in a mighty way and she was refilled with the Holy Ghost in her home!

Answered prayer! We mentioned in our last newsletter a need concerning the son of one of our saints. He had run out of money and food during the lockdown in his home country. He recently told his mother that he had felt God touch him in a special way. God miraculously provided food for him and his family and continues to provide everything they need during their lockdown.

Thank you! Several of you responded to the financial need we expressed in our last newsletter concerning our family insurance renewal. We are so thankful to report that God, through you, has provided! May God bless you abundantly for your additional sacrifice! We also thank all who consistently give each month and for the offerings and prayers you bless us with.
